Purpose:

Define eligibility to use WCBA extraction equipment.

Policy Statement:

Members who joined the WCBA by the yearly March 15 deadline are eligible to use the association's extraction equipment during that membership year if in the past they have returned equipment in a timely manner and in a clean condition.

Length of extraction checkout period is worked out with the custodian, and the custodian will determine if the equipment is returned in a clean condition. Equipment custodians are listed on the association's website along with instructions on how to clean the equipment.
